FRONT FACADE REPAIRS MOGGILL ROAD, INDOORROOPILLY

Team RTL excelling once again! Our building and roofing teams united for an exhilarating project. We've successfully demolished the aging front facade, not only paving the way for a breathtaking external transformation but also revitalizing the internal wall. Delighted to announce that these works are now completed, and UltraTune proudly boasts a brand new facade.

OVERHEAD POWER & TELEPHONE REPAIRS TAMBORINE

In the aftermath of a storm event, our team swiftly took charge to assess and address the damage to overhead power and telephone cables. Equipped with a mobile knuckle boom for a secure workspace, we replaced damaged property poles, disposed of compromised cables, and installed new overhead consumer mains and telephone lead-in cables. Ensuring compliance with current electrical standards, we conducted thorough testing, repaired minor damages, and terminated new connections. Our commitment to safety and efficiency extends to defect notification and collaboration with Energex for a prompt re-energization of the property. Upon completion, we meticulously tested and commissioned the system, leaving behind pristine work areas.
